Software Engineer with experience in Full-Stack development and a focus on Frontend (React + TypeScript). Experience developing internal applications, APIs, and automations to optimize operational and business processes.

PROFESSIONAL EXPERIENCE

Lexy

Full-Stack Developer (Frontend focused)

Concepción, Chile

Aug 2025 – Present

- Technical lead for the Health area, defining architecture and development standards, as well as coordinating and mentoring junior developers.
- Definition and standardization of frontend architecture and technical coordination of the Full-Stack cell, driving an internal development ecosystem consisting of a Design System, component library, CLI, and AI tools.
- End-to-end development of solutions to digitize and automate business processes, including applications for the Settlement and Health areas.
- Design and implementation of scraping systems based on workers and event-driven flows, applying reverse engineering to improve execution times and stability of critical processes.
- Evaluation of the company's technological ecosystem, investigating bottlenecks and system dependencies, and proposing alternatives to optimize costs through self-hosted solutions.

Masterbase

Frontend Developer

Concepción, Chile

Sept 2024 – Dec 2024

- Developed a SaaS product for condominium management using HTML, CSS, and JavaScript on the company's internal framework.
- Technical leadership of a 3-developer team, participating in solution definition, code review, refactoring, feature development, and coordination with internal stakeholders.

CITT, DuocUC

Web and Mobile Development Leader

Concepción, Chile

Dec 2022 – Dec 2024

- Led the web and mobile development workshop, training students, coordinating activities, and delivering technical talks at educational institutions.
- Technical leadership of SignAI, a bidirectional interpretation platform between voice and sign language based on neural networks, recognized with 1st National Place in Social Impact and 2nd National Place for Project of the Year at DuocUC DemoDay.

EDUCATION
